Training Description

The purpose of the training program is to familiarize participants with all aspects of applying CIM high performance coatings and liners. At the end of the training you will know:

- When and where to use the correct CIM products.
- Surface preparation, inspection issues and requirements.
- Recommended project staffing, skill requirements with hands-on demonstrations.
- Proper application techniques and requirements with hands-on demonstrations.

Who Should Attend?

Attendees should have experience applying industrial coating and lining systems. Experience with urethane systems would be beneficial.

The course is targeted at supervisors and crew leaders who work in the field and are responsible for coating operations. However, owners, project managers, and sales representatives will find the course to be useful and informative and are encouraged to attend.

Agenda

8:00 am Start Time

- Factory Trained Applicator Program
- CIM Coatings, Linings and Supporting Products
- Lab Session: What Can Go Wrong
- When, Where and Why to Use CIM Products
- Surface Preparation, Inspection and Defect Identification
- Environmental Monitoring
- CIM Material Preparation
- CIM Coating Application Methods and Equipment
- Joint Sealant Design and Installation with CIM
- Coating Inspection and Problem Resolution
- Hands-on application with brushes and rollers.

Safety

For attendees wishing to participate in the hands-on portion of the program, CIM Industries will provide carbon cartridge respirators, safety glasses, gloves, coveralls and head sock. During the hands-on portions of the program you may have contact with solvents and MDI isocyanate. Due to potential brief contact with these chemicals in the hands-on portion of the program, please consult your physician before participating.

Fee

The cost of the course is \$195 for the initial attendee from a company. Additional attendees from the same company are \$100 each. Please complete the attached registration form and enclose a check payable to CIM Industries, Inc.
